## Collection Summary

Creator: Roland Wells Robbins (1908-1987)

Title: The Roland Wells Robbins Collection

Abstract: This collection consists of the papers and research of Roland Wells Robbins.

Biography: After discovering the remains of Thoreau's Cabin in 1945, the self-taught archeologist Roland Wells Robbins published the book "Discovery at Walden" about his experience, and continued to take part in archeological digs throughout his life. Known for his controversial "pick and shovel" methods amongst the archeological community during his lifetime, he none the less helped to uncover many important locations of historical significance, such as the Saugus Iron Works.

Related Collections: The Walter Harding Collection; The Thoreau Society Collection

Preferred Citation: The Roland Wells Robbins Collection (The Thoreau Society Collections at The Thoreau Institute at Walden Woods)
